

SharePoint Application E – Library App

SMART
A NOVENTIQ Company

Outline

- Valuable professional experience has been gained through a large number of implemented projects, as well as through continued engagement in mastering new developments and technologies. Following market needs, as a Full-Service Software Solutions company, Smart had placed an emphasis on the production of dedicated solutions based on Microsoft SharePoint technologies.

WHAT IS E-LIBRARY?

E-Library is the simplest and most effective solution for improving your employee's personal effectiveness and soft-skills

Clear, highly visual and easy-to-navigate; help guide employees to their research topic.

Employees can find, read or download the books they need within seconds. It is so easy and intuitive for employees to use.

Title: The 7 Habits of Highly Effective People

Author: Stephen R. Covey

Year: 1989

Category: Business

Description: Covey's best-known book, it has sold more than 25 million copies worldwide since its first publication. The audio version became the first non-fiction audio-book in U.S. publishing history to sell more than one million copies.[2] Covey argues against what he calls "the personality ethic", that he sees as prevalent in many modern self-help books. He promotes what he labels "the character ethic": aligning one's values with so-called universal and timeless principles. In doing this, Covey is deliberately and mindfully separating principles and values. He sees principles as external natural laws, while values remain internal and subjective. Our values govern our behavior, while principles ultimately determine the consequences. Covey presents his teachings in a series of habits, manifesting as a progression from dependence through independence on to interdependence.
